ABOUT USA

Before you pack your bags, learn about what the U.S. has to offer.

Community College

If you wish to study as an international student in the USA but cannot pay for the costly tuition and requirements of universities, consider attending a community college for your first two years. They provide students with the best education at a fraction of the cost and are an excellent way for students from across the world to begin their path.

The U.S. has the maximum number of entrepreneurs in the world.

A home to a variety of industries and world-renowned education

Studying in the USA opens up a world of possibilities. The USA has something for everyone with its 50 states, each of which is like its own country due to their distinct climates, food, and cultural festivals. Its Higher education can facilitate learning for any number of disciplines in any surroundings.

The weather is very different across the country

The United States has ten distinct climate zones. Meanwhile, a hotter climate with dry and sunny weather all year can be found in America's Southwest. You'll need to pack your bags and clothes based on where you want to study.

Academics aren't everything

Students are expected to participate in extracurricular activities. Outside of your studies, you could join cultural or professional clubs or participate in sports or the arts because your grades are only one part of your scene, the other involves networking and being unique.

Golden Gate Bridge, San Francisco

A panoramic view of the New York City skyline at dusk. The Empire State Building is the central focus, illuminated with warm golden lights. To its left, the spire of the Freedom Tower is visible. To its right, the Chrysler Building and One World Trade Center are also prominent. The sky is a deep blue, and the city lights create a vibrant, glowing atmosphere.

America is a big country
with a wide range of
cultures and attractions.

Sports Game Vibes

Baseball

Sports games are extravagant events both inside and outside of the university. Baseball is strongly associated with America, and seeing a game is a must-do when in the country. Many cities, including Boston, San Francisco, and Chicago, have it.

Basketball

Do you have a big heart for the New York Knicks? You should not overlook this other popular sport in the U.S.

While studying, you can buy tickets and watch a game in many arenas across the country.

American Food

One way to truly immerse yourself in the American way of life is to try some of the various foods available.

Whether it's Mexican food in San Diego, barbeque in Texas, deep-dish pizza in Chicago, or key lime pie in Florida, you will be spoiled for choice no matter which state you study in.

Any American town will have a variety of Chinese, Mexican, and Italian restaurants. You can sample cuisines from all over the world, from Greek, Egyptian, and Vietnamese delights to Asian, Mediterranean, Spanish, and many other restaurants.

ACCOMMODATION OPTIONS

International students under 18 years of age must have suitable accommodation and welfare arrangements while they are studying in America.

Student Hostels

While students look for permanent housing, student hostels serve as a temporary solution and provide them with temporary housing. Because there is a constantly changing number of international students, student hostels provide plenty of arrangements to ensure the safety and security of its residents.

Rentals Apartments

Renting a private space is one of the most popular choices of international students. This allows you to share your accommodation with friends while still having some privacy. Most universities assign a liaison officer to assist international students with off-campus housing information.

Students Housing on Campus

On-campus student housing is the most popular and cost-effective option for international students in the USA. Some universities even require all freshmen to live on campus. Residence halls, apartments, and private suites known as student dorms are all part of American universities.

Homestay

Homestays are very popular and are probably the best option for international students like you who want to live independently in the USA. It will give you lots of the warmth of living with a family while also allowing you to learn a lot about American culture. It is a very safe option because the American Homestay Network monitors the safety and quality of homestays.

STUDY & WORK

Is it possible to do both at the same time?

International students studying in the U.S. are permitted to work part-time under the terms of their visas. When it comes to working, some visas have different restrictions. Students with an F-1 visa may work on campus part-time during their first year in the U.S., but only for a total of 20 hours per week during term time. Following that, you can apply to U.S. Citizenship and Immigration Services for an off-campus employment permit. Students with an M-1 visa are not permitted to work.

The majority of international students in the USA study on an F-1 visa. These visas are intended for visitors who do not intend to stay in the country permanently. These students may work in the USA if they meet certain conditions, guidelines, and restrictions imposed by the U.S. Citizenship and Immigration Service (USCIS).

On-campus Employment

International students enrolled full-time and in valid F-1 status are generally permitted to work on campus for up to 20 hours per week during the academic year and up to 40 hours per week during the summer (during extended holidays, breaks, and summer sessions). Seek an advice and approval from your school's International Student Office before accepting employment.

Curricular Practical Training (CPT)

You may be eligible to apply for Curricular Practical Training (CPT) if you have been enrolled full-time at a university in the United States for at least one academic year. You must receive course credit for your work and complete the CPT before graduating.

Optional Practical Training (OPT)

Allows international students studying at or who have graduated from the U.S. universities to keep their F-1 student status while working in their field of study for a U.S. company. Students from any field can apply for up to 12 months of "post-completion" OPT, while those with a degree in STEM can apply for a two-year "STEM extension" for a total of 36 months.

Working After Graduation

If you want to stay and working after finishing your studies, you will need to get a new visa. For more information on working in the U.S. after graduation, visit the U.S. Citizenship and Immigration Service website.
